All sides contribute to the success of the sponsorship. In a sponsorship, the focus is on the child. For the success of the kindergarten sponsorship, everyone involved must feel comfortable.

A kindergarten year runs from September to July. August is a holiday month. This month does not have to be paid. The annual contribution for a kindergarten year is 220 euros (20 euros per month, calculated over 11 months/year) including food costs.

The last year of kindergarten before starting school is a compulsory year for the children. This means that a child who does not attend this last year of kindergarten cannot start school. Therefore, this support is very important for many parents and especially for the children.

A child can go to kindergarten at a maximum of 4 years. How many months do you want to fund?

Start of the sponsorship:

- 01.03. 5 months (until July 31, 100 €)
- 01.03. always until start of school year (July 31), maximum 38 months \_\_\_\_\_ Months
- 01.09. 11 months (a full kindergarten year from September to July, 220 €/ year)
- 01.09. always until start of school year (July 31), maximum 44 months \_\_\_\_\_ Months

The kindergarten fee is to be transferred to the specified account with the purpose of the sponsor number and is due in one installment for a term of 5 months. From a term of 11 months, you can also pay monthly with a standing order. The payment must arrive 14 days before the start of the sponsorship.

Your signed agreement will be countersigned by us and returned to you with the sponsorship number. After receipt of payment, we will send you the kindergarten sponsorship certificate and a donation receipt.

The sponsorship certificate must not be shown in the public media, as the privacy of the child is to be protected.
